How Risky is it?	Risk rating
<p>The value of the Fund can go down as well as up. You could lose money.</p> <p>One way to gauge risk is to look at how much a fund’s returns change over time. This is called “volatility”.</p> <p>In general, funds with higher volatility will have returns that change more over time. They typically have a greater chance of losing money and may have a greater chance of higher returns. Funds with lower volatility tend to have returns that change less over time. They typically have lower returns and may have a lower chance of losing money.</p> <p><b>No guarantees</b> Like most mutual funds, this Fund doesn’t have any guarantees. You may not get back the amount of money you invest.</p>	<p>Educators Financial Group has rated the volatility of the Fund as <b>medium</b>.</p> <p>Because this is a new fund, the risk is only an estimate by Educators Financial Group. Generally, the rating is based on how much the Fund’s returns have changed from year to year. It doesn’t tell you how volatile the Fund will be in the future. The rating can change over time. A fund with a medium risk rating can still lose money.</p>  <p>For more information about the risk rating and specific risks that can affect the Fund’s returns, see the Investment Risk Classification Methodology section of the Fund’s simplified prospectus.</p>

### A word about tax

In general, you'll have to pay income tax on any money you make on the Fund. How much you pay depends on the tax laws where you live and whether or not you hold the Fund in a registered plan, such as a Registered Retirement Savings Plan or a Tax-Free Savings Account.

Keep in mind that if you hold the Fund in a non-registered account, Fund distributions are included in your taxable income, whether you get them in cash or have them reinvested.

### How much does it cost?

The following table shows the fees and expenses you could pay to buy, own and sell Class F units of the Fund. The fees and expenses – including any commissions – can vary among classes of a fund and among funds. Higher commissions can influence representatives to recommend one investment over another. Ask about other funds and investments that may be suitable for you at a lower cost.

#### 1. Sales charges

The fund is sold on a no-load basis only, **sales charges do not apply.**

#### 2. Fund expenses

You don't pay these expenses directly. They affect you by reducing the Fund's returns.
