

2025

INTERIM MANAGEMENT REPORT OF FUND PERFORMANCE

June 30, 2025

Offered by Educators Financial Group
Portfolio Adviser: RBC Global Asset Management Inc., Vancouver, BC

Educators Monitored Growth Portfolio

This interim management report of fund performance contains financial highlights but does not contain either the interim financial report or the annual financial statements of the investment fund. You can get a copy of the interim financial report or annual financial statements at your request, and at no cost, by calling 1.800.263.9541, by writing to us at Educators Financial Group, 2225 Sheppard Ave. East, Suite 1105, Toronto, Ontario, M2J 5C2, or by visiting our website at www.educatorsfinancialgroup.ca or SEDAR+ at www.sedarplus.com.

Securityholders may also contact us using one of these methods to request a copy of the investment fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

Caution Regarding Forward-looking Statements

This report may contain forward-looking statements about the Fund, including its strategy, risks, expected performance and condition. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “expects”, “anticipates”, “intends”, “plans”, “believes”, “estimates” or negative versions thereof and similar forward-looking expressions.

In addition, any statement that may be made concerning future performance, strategies or prospects, and possible future Fund action, is also a forward-looking statement. Forward-looking statements are based on current expectations and projections about future general economic, political and relevant market factors, such as interest rates, foreign exchange rates, equity and capital markets, and the general business environment, in each case assuming no changes to applicable tax or other laws or government regulation. Expectations and projections about future events are inherently subject to, among other things, risks, and uncertainties, some of which may be unforeseeable. Accordingly, assumptions concerning future economic and other factors may prove to be incorrect at a future date.

Forward-looking statements are not guarantees of future performance, and actual events and results could differ materially from those expressed or implied in any forward-looking statements made by the Fund. Any number of important factors could contribute to these digressions, including, but not limited to, general economic, political and market factors in North America and internationally, including international conflicts, interest and foreign exchange rates, global equity and capital markets, business competition, technological change, changes in government regulations, unexpected judicial or regulatory proceedings, and catastrophic events.

It should be stressed that the above-mentioned list of factors is not exhaustive. You are encouraged to consider these and other factors carefully before making any investment decisions and you are urged to avoid placing undue reliance on forward-looking statements. Further, you should be aware of the fact that the Fund has no specific intention of updating any forward-looking statements, whether as a result of new information, future events or otherwise, prior to the release of the next Management Report of Fund Performance unless required by applicable law.

MANAGEMENT DISCUSSION OF FUND PERFORMANCE

Results of Operations

The Fund's net assets increased by 5.3% to \$26.0 million at the end of June 2025, up from \$24.7 million at the end of December 2024.

Investment Performance

For the year/period ending June 30, 2025 (the period), the Educators Monitored Growth Portfolio – Class A Series provided a return of 5.56% versus a Benchmark return of 6.21%. The Benchmark is a weighted composite consisting of 20.0% MSCI EAFE Index C\$, 25.0% S&P 500 Index C\$, 30.0% S&P/TSX Composite Index, 22.5% FTSE Canada Universe Bond Index, and 2.5% FTSE Canada Short Term Bond Index (the Benchmark).

The Fund underperformed its blended Benchmark over the period. Unlike the Benchmark, the Fund's return is net of fees and expenses paid by the Fund. Detailed performance is provided under the heading "Past Performance" in this report. Investors cannot invest in the Benchmark without incurring fees, expenses and commissions which are not reflected in Benchmark returns.

Tariffs have been the dominant theme affecting markets during the period. The Trump administration's 'Liberation Day' announcement on April 2 ushered in a new era for global trade with a 10% global baseline tariff, alongside higher reciprocal tariffs targeting countries with large trade deficits with the United States. The broad sell-off in equity markets that followed saw the U.S. government change direction, announcing a 90-day moratorium on the reciprocal tariffs for most regions. The pause drove an immediate market reversal for global stocks with both the S&P 500 Index and S&P/TSX Composite Index reaching record highs by the end of the period.

The Canadian economy continued to demonstrate resilience amid global uncertainty. Buoyed by improving macroeconomic fundamentals and a favorable monetary policy environment, Canada's GDP growth remained modest, but positive—underpinned by steady consumer spending and a resilient labour market. Inflation continued to ease, with headline CPI falling to around 2.3% by March, down from earlier highs thanks to declining energy and travel costs. This moderation in inflation allowed the Bank of Canada (BoC) to continue its rate-cutting cycle and lower its policy rate by 25 basis points in both January and March to 2.75% as of June 30 of this year—a drop of 2.25 percentage points since June 2024., contributing to improved borrowing conditions and investor sentiment.

Government fixed income delivered overall gains in the first half of 2025, as coupon income from bonds issued in the U.S. and China, and rising bond prices in emerging markets, offset the negative impact of rising interest rates—and falling bond prices in Europe and Japan. Investors faced challenges ranging from the inflationary and growth effects of Trump's tariffs, to the outbreak of war between Israel and Iran. Canadian bonds delivered minimal returns through

the first six months of 2025, as concerns regarding higher-than-expected inflation from U.S. tariffs led investors to demand higher yields on most fixed-income securities. Riskier emerging-market bonds delivered strong gains, outperforming investment-grade issuers such as China, Malaysia, and Indonesia.

U.S. stocks retreated from all-time highs established early in the year after Trump announced his tariffs, but then rebounded to finish the period near their highs. The Information Technology sector continued to support U.S. equities, while the Consumer Discretionary sector lagged. European stocks outperformed U.S. stocks due to a shift by investors to euro-denominated assets, as well as Germany's decision to boost government spending after decades of conservative fiscal policy. In emerging markets, an equity recovery in China, which accounts for about a third of the emerging-market benchmark, bolstered emerging-market equity performance. One of the most notable emerging-market developments in 2025 was the release of an artificial-intelligence (AI) model introduced by China's DeepSeek. The release of this AI service, which might be competitive with U.S. AI leaders such as ChatGPT, boosted investor impressions of Chinese technology companies and emerging-market technology stocks in general.

Recent Developments

Despite many equity markets nearing or reaching all-time highs, significant uncertainty within a complex geopolitical and macroeconomic environment remains. Escalating tariff and trade tensions cloud the economic outlook and may intensify inflationary pressures. Secular themes such as de-globalization, protectionism, increased geopolitical conflict, stretched government finances, and a multipolar world, continue to gain momentum. The U.S. continues to be the world's largest economy and a vital trading partner for many countries. In particular, Canada's economy is heavily reliant on trade with its neighbour to the south, but so far at least, the threat of tariffs has negatively affected the U.S. market much more than global markets.

Considering the short-term risks and the long-term opportunities, the Portfolio is maintaining an asset allocation that is relatively close to neutral, given heightened uncertainty in the macroeconomic backdrop and the portfolio adviser's view that the risk premium between stocks and bonds is relatively small. The Portfolio is seeking mid-single-digit returns from sovereign bonds over the year ahead, with only modest valuation risk. Stocks offer slightly better return potential, particularly outside of U.S. large caps, and the portfolio adviser added to the equity allocation. Within the equity regional mix, the Portfolio has tilted away from expensive U.S. large-cap stocks in favour of non-U.S. stocks, particularly in Europe, where valuations are more appealing.

Related Party Transactions

Pursuant to the Fund's investment strategies included in the Fund's Simplified Prospectus, the Fund invests primarily in the units of other mutual funds (Educators Financial Group Funds, RBC Mutual Funds, approved exchange traded funds ("ETFs") and approved other third-party managed funds) and for the period has invested in various RBC GAM Funds which are funds managed by the Fund's Portfolio Adviser. Please refer to the "Top Holdings" in the Summary of Investment Portfolio section of this report.

In the first six months of 2025 Educators Financial Group did not refer any conflict of interest matters to the Fund's Independent Review Committee (the IRC) and accordingly, did not rely upon any recommendation of the IRC in respect of any related party transactions.

Educators Financial Group is the Manager and Trustee of the Fund. Educators Financial Group is a wholly owned subsidiary of the Ontario Secondary School Teachers' Federation (OSSTF). OSSTF may from time to time invest in units of the Fund.

FINANCIAL HIGHLIGHTS

The following tables show selected key financial information about the Fund and are intended to help you understand the Fund's financial performance for the six-month period and for the past five years. Currently Class I units of the Fund are not being offered to purchase by retail investors.

⁽¹⁾ This information is derived from the Fund's interim financial report and audited annual financial statements. For financial year beginning after January 1, 2014, the financial highlights were derived from the Fund's financial statements prepared in accordance with International Financial Reporting Standards (IFRS). All references to "Net Assets" or "Net Assets per Unit" in these financial highlights are references to net assets attributable to holders of redeemable units determined in accordance with IFRS as presented in the financial statements of the Fund.

⁽²⁾ Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase/decrease from operations is based on the weighted average number of units outstanding over the financial period. This table is not intended to be a reconciliation of beginning to ending net assets per unit.

⁽³⁾ Distributions were either paid in cash or reinvested in additional units of the Fund.

⁽⁴⁾ This information is provided as at June 30 or December 31 of the year shown.

⁽⁵⁾ Management expense ratio is based on total expenses (excluding distributions, commissions, and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of daily average net asset value during the period.

⁽⁶⁾ The management expense ratio before waivers or absorptions shows what the management expense ratio of the Fund would have been if Educators Financial Group had not charged a lesser amount for its management fee.

⁽⁷⁾ The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the period.

⁽⁸⁾ The Fund's portfolio turnover rate indicates how actively the Fund's portfolio adviser manages its portfolio investments. A portfolio turnover rate of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the year. The higher a fund's portfolio turnover rate in a year, the greater the trading costs payable by the fund in the year, and the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of a fund.

Management Fees

Educators Financial Group is the Manager-Trustee, promoter, and principal distributor of the Fund, and is responsible for the day-to-day management and administration of the Fund.

The Manager-Trustee monitors and evaluates the performance of the Fund and pays for the investment management services of the portfolio adviser, as well as all administrative services required by the Fund. As compensation for these services, Educators Financial Group is entitled to receive a fee, payable monthly and calculated daily, based on the Net Asset Value of the Fund, at the annual rate of 1.75% for the Class A Series, 1.40% for the Class E Series and 0.75% for the Class F Series. The Class I Series is identical in all aspects to the Class A Series, except that there is no management fee payable by the Fund in respect of the Class I units.

The Fund is responsible for paying any applicable tax owing on its management fee.

Approximately 13.4% of the total management fees collected from all Series (excluding Class I Series approximately 13.1% of the total management fees collected), were used to pay for portfolio management services, with the remainder of the fees being allocated to custodial services, marketing, technology, and Manager-Trustee operating expenses.

PAST PERFORMANCE

General

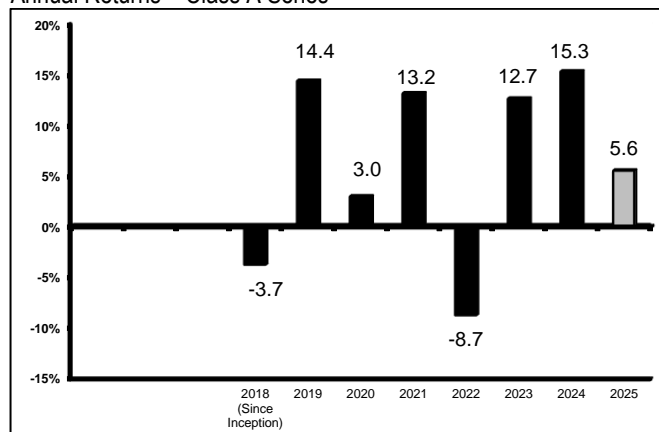

The Fund's performance information shown assumes that all distributions made by the Fund in the period(s) shown were reinvested in additional units of the Fund.

The performance information does not take into account sales, redemption, distribution, or other optional charges that would have reduced returns or performance. The performance of different fund series may vary for a number of reasons, including differences in management fees and expenses. Please remember that how the Fund has performed in the past does not necessarily indicate how it will perform in the future.

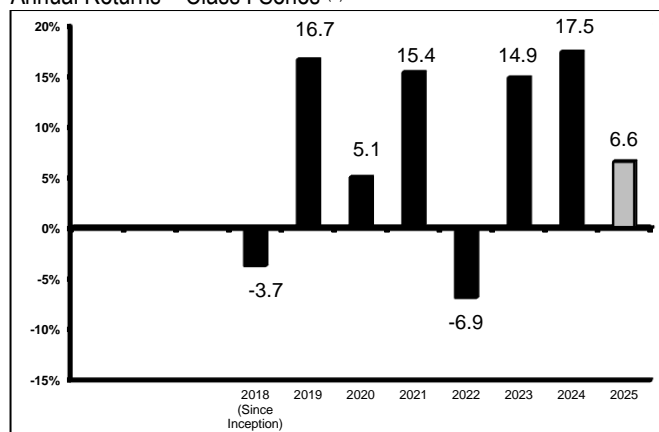

Year-by-Year Returns

The bar chart shows the Fund's annual performance for each of the years shown and for the six-month period and illustrates how the Fund's performance has changed from year to year. The bar chart shows, in percentage terms, how much an investment made on the first day of each financial period would have grown or decreased by the last day of each financial period.
